I. INTRODUCTION
The board of education (“board”) is committed to providing a safe and orderly school environment where students may receive, and district personnel may deliver, quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and other visitors is essential to achieving this goal.

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that discipline when necessary is administered promptly, consistently and fairly. To this end, the board adopts this code of conduct (“code”).

Unless otherwise indicated, this code applies to all students, school personnel, parents and other visitors when on school property or attending a school function.

School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students’ ability to grow in self-discipline.
Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

3. The student’s prior disciplinary record
4. The effectiveness of other forms of discipline

As a general rule, discipline will be progressive. This means that a student’s first violation may merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education. Discipline, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. B. Procedures
The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct.

All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty. Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1. Detention
   - Teachers, principals and the superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

2. Suspension from transportation
   - If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal’s attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent.
or their designees. In such cases, the student’s parent will become responsible for seeing that his or her child gets to and from school safely.

- Should the suspension from transportation amount to a suspension from attendance, the district will make appropriate arrangements to provide for the student’s education. A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student’s parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal’s designee to discuss the conduct and the penalty involved.

3. **Suspension from athletic participation, extra-curricular activities and other privileges**
   - A student subjected to a suspension from athletic participation, extracurricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student’s parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved.

4. **In-school suspension**
   - The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension."
   
   - A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student’s parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. **Teacher disciplinary removal of disruptive students**
   - A student’s behavior can affect a teacher’s ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student’s behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in another classroom; (2) sending a student into the hallway briefly; (3) sending a student to the principal’s office for the remainder of the class time only; (4) sending a student to a guidance counselor or other district staff member for counseling.

   - Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of the code. On occasion, a student’s behavior may become disruptive. For purposes of the code of conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher’s authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher’s authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher’s instructions or repeatedly violates the teacher’s classroom behavior rules.

   - A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only. If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed. The student will be given an opportunity to explain his or her version of the relevant events before the student is removed and only after the informal discussion may a teacher remove a student from class. Only after the informal discussion may a teacher remove a student from class.

   - If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours or the next school day. The teacher must complete a district-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal forms. If the principal or designee is not available by the end of the same
school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

- Within 24-hours after the student’s removal, the principal or another district administrator designated by the principal must notify the student’s parents that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal’s designee to discuss the reasons for the removal. The written notice must be provided by personal delivery, express mail, or some other means to the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

- The principal may require the teacher who ordered the removal to attend the informal conference. If at the informal meeting the student denies the charges, the principal or the principal’s designee must explain why the student was removed and give the student and the student’s parents a chance to present the student’s version of the relevant events. The informal meeting must be held within 48 hours or the second school day following the student’s removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

- The principal or the principal’s designee may overturn the removal of the student from class if the principal finds any one of the following:
  1. The charges against the student are not supported by substantial evidence.
  2. The student’s removal is otherwise in violation of law, including the district’s code of conduct.
  3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

- The principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

- Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

- Each teacher must keep a complete log (on a district provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

- Removal of a student with a disability, under certain circumstances, may constitute a change in the student’s placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student’s rights under state or federal law or regulation.

6. Suspension from school

- Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

- The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

- Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

- The superintendent or principal, upon receiving a recommendation or referral for suspension, or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. Short-term (5 days or less) suspension from school

- When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law
§3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents.

- The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. The parents shall in the dominant language or mode of communication use both the notice and informal conference. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

- The notice and opportunity for an informal conference shall take place before the student is suspended unless the student’s presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student’s presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

- After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent’s decision, they must file a written appeal to the Board of Education with the district clerk within 10 business days of the date of the superintendent’s decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b. Long-term (more than 5 days) suspension from school

- When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student’s parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

- The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

- An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent’s decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

c. Permanent suspension

- Permanent suspension is reserved for extraordinary circumstances such as where a student’s conduct poses a life-threatening danger to the safety and well being of other students, school personnel or any other person lawfully on school property or attending a school function.

C. Minimum Periods of Suspension

1. Students who bring a weapon to school

- Any student, other than a student with a disability, found guilty of bringing a weapon onto school property would be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The
superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:
   a. The student’s age.
   b. The student’s grade in school.
   c. The student’s prior disciplinary record.
   d. The superintendent’s belief that other forms of discipline may be more effective.
   e. Input from parents, teachers and/or others.
   f. Other extenuating circumstances.

- A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. **Students who commit violent acts other than bringing a weapon to school**
   - Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student’s parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student’s parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. **Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher’s authority over the classroom**
   - Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher’s authority over the classroom, will be suspended from school for at least five days. For purposes of this code of conduct, "is repeatedly substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester. If the proposed penalty is the minimum five-day suspension, the student and the student’s parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension.
   - If the proposed penalty exceeds the minimum five-day suspension, the student and the student’s parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D. **Referrals**
   1. Counseling
   2. PINS Petitions
      - The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:
         a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
         b. Engaging in an ongoing or continual course of conduct, which makes the student ungovernable or habitually disobedient, and beyond the lawful control of the school.
         c. Knowingly and unlawfully possesses marijuana in violation of Penal Law §221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.
   3. Juvenile Delinquents and Juvenile Offenders
      - The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:
         a. Any student under the age of 16 who is found to have brought a weapon to school, or
b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42) The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

**X. DISCIPLINE OF STUDENTS WITH DISABILITIES**

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

The code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

**XI. DANGEROUS WEAPONS IN SCHOOL**

No student shall bring or possess any “firearm” as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings, and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term “firearm” includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any “destructive device” (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle that the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free School Act of 1994, a student found guilty of bringing a firearm, as defined in federal law, onto school property after a hearing has been provided pursuant to section 3214 of the Education law will be subject to at least a one-year suspension from school.* However, after this penalty has been determined, the Superintendent of Schools will review the penalty and may modify such suspension on a case-by-case basis. If the superintendent believes a one-year suspension penalty to be excessive, he/she may modify the penalty based on criteria including but not limited to:

The age of the student;
The student's grade in school;
The student's prior disciplinary record;
The superintendent's belief that other forms of discipline may be more effective;
Input from parents, teachers and/or others; and
Other extenuating circumstances.

New York State Peace Officers and Police Officers are the only people permitted on school property to have a weapon in their possession.

*Federal law requires at least a one-year suspension from school for any student who is found to have brought a firearm to school, however, the law permits and the Association strongly recommends that the Superintendent of Schools review each such case to determine if the penalty should be modified. This determination must be made on a case-by-case basis.

**Adopted by the Board of Education on August 7, 2012**

**XII. DISSEMINATION AND REVIEW**

**Dissemination of Code of Conduct**

The Board will work to ensure that the community is aware of this Code of Conduct by:

1) Providing a public hearing prior to Board approval.
2) Providing copies of a summary of the Code to all students, in an age-appropriate, plain-language version, at a general school assembly held at the beginning of each school year.
3) Making copies of the Code available to all parents at the beginning of the school year.
4) Providing a summary of the Code of Conduct written in plain language to all parents of District students before the beginning of the school year and making this summary available later upon request.

5) Providing all current teachers and other staff members with a copy of the Code and a copy of any amendments to the code as soon as practicable after adoption.

6) Providing all new employees with a copy of the current Code of Conduct when they are first hired.

7) Making copies of the Code available for review by students, parents and other community members and provide opportunities to review and discuss this Code with the appropriate personnel.

The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the Code of Conduct. The Superintendent may solicit the recommendations of the District staff, particularly teachers and administrators, regarding in service programs pertaining to the management and discipline of students.

The Board of Education, via a committee of representative stakeholders, will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the code's provisions have been and whether the Code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the Code and the District's response to Code of Conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Before adopting any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.

The District shall post the complete Code of Conduct (with all amendments and annual updates) on the District's website, if available. The District shall file a copy of its Code of Conduct and any amendments with the Commissioner, in a manner prescribed by the Commissioner, no later than thirty (30) days after their respective adoptions.
