SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES

The District's computer system (DCS hereafter) is provided for staff to enhance the educational programs of the District, to further District goals and objectives; and to conduct research and communicate with others.

Generally, the same standards of acceptable staff conduct, which apply to any aspect of job performance, shall apply to use of the DCS. The standards of acceptable use as well as prohibited conduct by staff accessing the DCS, as outlined in District policy and Regulation, are not intended to be all-inclusive. The staff member who commits an act of misconduct which is not specifically addressed in District policy and/or regulation may also be subject to disciplinary action, including loss of access to the DCS as well as the imposition of discipline under the law and/or the applicable collective bargaining agreement. Legal action may also be initiated against a staff member who willfully, maliciously or unlawfully damages or destroys property of the District.

Staff are encouraged to utilize electronic communications in their roles as employees of the District. Staff are also encouraged to utilize electronic means to exchange communications with parents/guardians or homebound students, subject to appropriate consideration for student privacy. Such usage shall be limited to school related issues or activities. Communications over the DCS are often public in nature; therefore, general rules and standards for professional behavior and communications will apply.

The District's policies and accompanying regulations on staff and student use of computerized information resources establish guidelines for staff to follow in instruction and in working with students on acceptable student use of the DCS, including access to external computer networks. The computer coordinator may access all such files and communications to ensure system integrity and that users are complying with requirements of District policy and accompanying regulations. Staff should **NOT** expect that information stored on the DCS will be private.

Prohibitions

It is not the intention of this regulation to define all inappropriate usage. However, in addition to the general requirements of acceptable staff behavior, activities which shall be prohibited by staff members using the DCS include, but are not limited to, the following:
